Workshop Schedule

Thursday, May 25th --

9:00   **Welcome & registration**

9:30   **Introduction & setting the scene**

10:00   Short coffee break

10:15   **Panel: *Open science, open innovation, open data: On the multiple ways of infrastructuring openness***

        Katja MAYER
           Re-valuing Openness: contested open data practices in global machine learning
        Or COHEN-SASSON & Ofer TUR-SINAI
           The Role of Funding Agencies in Facilitating Open Science: A Multinational Analysis
        Carlos CUEVAS GARCIA
           Democratising European robotics? Collaborative machines and open innovation infrastructures
        Antonia WINKLER
           When experiments cease to end: How an open data infrastructure challenges the notion of the experiment

12:00   Lunch break

13:00   **Panel: *Research infrastructures: Articulating present configurations and future needs***

        Krystel WANNEAU
           Enrolling research infrastructures toward the planet stewardship: the case of marine biodiversity monitoring in France and the EU
        Francesca MORSELLI
           Co-creation dynamics in a European Research Infrastructure Consortium (ERIC). The case of the DARIAH-ERIC Working Groups
        Oguz OZKAN
           Entangled presence of multiple infrastructures in European laser science
        Noah MÜNSTER
           Governing uncertainties: Justifying CERN's Future Circular Collider

14:45   Coffee break

15:15 **Panel: *How different forms of infrastructuring matter: Values, evaluations, and the scientific self***

Lucas BRUNET & Ruth MÜLLER
An Infrastructure of Excellence? Exploring Peer-Review at the European Research Council (ERC)
Alexandra DIRKSEN & Sebastian GIESSLER
Taming Rouge Ethics: The Case for a Unified and Fair IRB Procedure
Francisco DURAN DEL FIERRO
Research infrastructure development and the scientific self: the case of the Square Kilometre Array Observatory (SKAO)

16:45 Coffee break

17:15 **Keynote**
Katharina CRAMER
Europeanization of Research Infrastructure Policy

18:30 Reception

Friday, May 26ᵗʰ ---

9:15 **Keynote**
Klaus HOEYER
Making and experiencing a European Health Data Space

10:30 Coffee break

11:00 **Panel: *Governing infrastructures, infrastructuring governance: The case of health research***

Heidrun ÅM
Reorganizing Norwegian health data infrastructures: A value shift in governance?
Christian HADDAD
Re-calibrating research infrastructures for the post-antibiotic era
Ulrike FELT
Biodata and the infrastructuring of European citizen-patients

12:30 Lunch break

13:30 **Panel: *Other "spaces" of infrastructuring Europe***

Nina KLIMBURG-WITJES
Shifting articulations of space and security: Boundary work and infrastructural transformations in European space policy-making
Linda MONSEES
Infrastructuring semiconductors: Innovating the European way of life
Marija ISAILOVIC
Constructing narratives of ESA's Large space missions: imagined future, power relation and social change
Zinaida VASILYEVA
Infrastructuring values – reordering Europe: space politics and projects of European integration

15:15 Short coffee break

15:30 **Final discussion & wrap-up**
